

Auvé Night Revitalizer

“My philosophy is that rejuvenation is the key to life. A full night of sleep is necessary for our bodies to refresh and stay healthy, and to maintain optimum energy during the day.

My vision for Night Revitalizer was to create a product to replenish and feed skin each night with as many nutrients as possible; much like sleep restores our bodies.

I devoted countless hours to the development of this product through intense research and analysis, combining extracts that are significantly beneficial to the skin. The results were tested on my family and friends (Auvé products are never tested on animals).

Those years of research, testing and creation embody my vision and my philosophy tangibly in this product.

I always sleep wearing Night Revitalizer. I love the radiant, intensely moisturized vitality and non-greasy appearance I see each morning in my reflection after using Night Revitalizer the night before.”

Auvé Night Revitalizer, applied nightly after cleansing, restores skin's essential nutrients.

This rich, creamy moisturizer replenishes skin overnight with an infusion of the elements we lose each day. While at rest, Night Revitalizer helps skin restore vital moisture and nutrients, improving tone, smoothing texture, brightening and rehydrating the complexion. Among noticeable improvements is a healthy glow with no greasy residue.

Active ingredients from nature include oils and extracts of grapefruit, lemongrass, oats, chamomile and rosemary. The unique combination of citrus oils in Night Revitalizer soothes and invigorates.

Within days, skin looks and feels smoother, brighter and rejuvenated.

Restorative effects increase through nightly application of Night Revitalizer over Auvé VitaComplex Serum.

Ten percent of funds from every Night Revitalizer sold is donated toward Auvé College Scholarships awarded to disadvantaged and underrepresented college students, supporting their academic goals in math, engineering, and science. This scholarship program is affiliated with 501c3 non-profit MESA (National Mathematics, Engineering, Science Achievement). While in college, Auvé Founder Angella Sprauve and her brother were each awarded MESA scholarships that made it possible for them to graduate college and pursue careers in science and engineering.
