

Auvé Skincare Products

"We are all unique. So is our skin. My company embodies a core ideal that each person deserves personal attention. Our product formulas cater to each skin type.

Skincare should and can be simple and easy, fitting easily into each person's daily routine.

We strive for maximum efficacy in each product, without need for multi-step processes.

Our simplistic approach to healthy skincare begins from within. What we put into our bodies and feed into our minds is what ultimately shows in our outward appearance, well being and consciousness"

*Angella Sprauve
Founder, Auvé*

Auvé products are for men and women of all skin types. Our products are earth-friendly, never tested on animals. We provide ease and noticeable results from regular skincare to enhance appearance and well being. Auvé maximizes the potency and benefits of natural and unrefined products through the use of innovative scientific practices. Our symbiotic combination balancing the power of nature and science results in exceptional skin care. Auvé's mission is to improve appearance and long-term health of skin while enhancing each consumer's skincare knowledge.

Auvé's commitment to knowledge and heightened awareness in skincare begins with education of consumers about the benefits of natural ingredients. Auvé packaging is designed to educate, with a 'knowledge strip' on each product label. We share the knowledge and benefits of all natural ingredients. Auvé products smell subtle and feel smooth, with a silky texture. Our products are made in small batches, maintaining the integrity and quality of each product.

Indigenous natural and unrefined ingredients are continually explored, researched, tested and developed into effective product formulations. We perform ongoing analysis to maintain and enhance the process of creating the finest formulation. We ensure that the stability of our formulations are enhanced only with small amounts of preservatives and other stabilizing ingredients.

Angella Sprauve created Auvé to enhance the appearance and well-being for people of all skin types. Auvé provides opportunity for young people to further their education in science, math, and engineering providing sustainable support for the education of our young people and their critical role in the future of our global society.

Ten percent of funds from every Auvé product sold is donated toward Auvé College Scholarships awarded to disadvantaged and underrepresented college students, supporting their academic goals in math, engineering, and science. This scholarship program is affiliated with 501c3 non-profit MESA (National Mathematics, Engineering, Science Achievement). While in college, Auvé Founder Angella Sprauve and her brother were each awarded MESA scholarships that made it possible for them to graduate college and pursue careers in science and engineering.
